

UNITED STATES DISTRICT COURT
WESTERN DISTRICT OF WASHINGTON

PROTECTING ACCESS TO RETAIL
PHARMACY, LLC d/b/a TRUST, LLC;
[Caption continues with additional plaintiffs on
pages 23 through 52],

Plaintiffs,

v.

PRIME THERAPEUTICS, LLC,

Defendant.

NO.

COMPLAINT

DEMAND FOR JURY TRIAL

I. INTRODUCTION

1. Plaintiffs Protecting Access to Retail Pharmacy, LLC d/b/a TRUST, LLC (“TRUST LLC”), and the almost 5,000 pharmacies as indicated in Appendix A,¹ (collectively, “Plaintiffs”) bring this action against Defendant Prime Therapeutics, LLC (“Prime” or “Defendant”) for violations of Section 1 of the Sherman Antitrust Act, 15 U.S.C. § 1, and breach of contract.

2. Prime has entered into an unlawful price-fixing agreement (the “Agreement”) with its co-conspirator, Express Scripts, Inc. (“Express Scripts” or “Co-Conspirator”) that has resulted in damages suffered by pharmacies across the United States, including Plaintiffs. The Agreement enabled Prime to impose reimbursement rates and fees on Plaintiffs that are less favorable than they otherwise would be—in violation of the antitrust laws and in breach of the

¹ To be more precise, the pharmacy plaintiffs consist of the business entities that control the legal rights to the individual pharmacy locations and NCPDP numbers listed in Appendix A.

1 contracts between Prime and Plaintiffs. Plaintiffs seek treble damages, costs, attorneys' fees, and
2 other monetary relief for Prime's violations of Section 1 of the Sherman Antitrust Act, 15 U.S.C.
3 § 1. Additionally, Plaintiffs seek damages for Prime's breach of contract.

4 II. PROCEDURAL BACKGROUND

5 3. Plaintiff TRUST LLC is a Virginia limited liability company formed in 2023 by
6 the National Community Pharmacists Association.

7 4. There are approximately 19,000 independent pharmacies in the United States.
8 Nearly 5,000 of them initiate this action through TRUST LLC, to which they have assigned their
9 claims described herein. In the alternative, each independent pharmacy is named as a plaintiff in
10 case Prime challenges the validity of the assignments.

11 5. Prime enters Pharmacy Participation Agreements ("PPAs" or "Contracts") with
12 pharmacies, which govern the terms of participation in Prime's pharmacy networks. Prime
13 presents its PPAs to pharmacies on a "take it or leave it" basis.

14 6. Effective December 1, 2024, Prime issued a uniform Dispute Resolution
15 Amendment to its PPA ("Amendment"). The Amendment purported to impose a mandatory
16 arbitration clause requiring that disputes between Prime and any participating pharmacy be
17 arbitrated before JAMS.

18 7. Prime characterized the Amendment as creating "a uniform dispute resolution
19 process across all our networks to build consistency with our pharmacy partners."

20 8. On October 20, 2025, TRUST LLC filed a Demand for Arbitration in JAMS per
21 Prime's Dispute Resolution Amendment.

22 9. At Prime's request, on October 31, 2025, TRUST LLC provided Prime with a list
23 of pharmacy assignees and exemplar assignment agreements.

24 10. On November 7, 2025, TRUST LLC provided Prime with a complete set of the
25 executed assignments.

26 11. Prime then objected that JAMS was not the proper forum.
27

1 12. Prime told JAMS in writing that “a substantial number” of TRUST LLC’s
2 assignors are not bound by Prime’s Amendment and must instead pursue their claims before the
3 American Arbitration Association (“AAA”).

4 13. Prime did not identify the pharmacies that it claimed were required to pursue their
5 claims through AAA.

6 14. Prime indicated that it may have multiple arbitration agreements with individual
7 pharmacy locations and refused to say which of its own agreements would govern, further
8 muddying the process of identifying the appropriate dispute resolution forum.

9 15. On April 1, 2026, TRUST LLC filed a Demand for Arbitration in AAA.

10 16. Prime has since indicated that it will contest AAA as the proper forum for the
11 action as well.

12 17. Prime has refused to commit to any dispute resolution forum or legal process for
13 the pharmacies initiating this litigation, either individually or through TRUST LLC.

14 18. Prime’s conduct appears designed to prevent pharmacies from vindicating their
15 legal rights—first by resisting arbitration in JAMS, then signaling its intent resist arbitration in
16 AAA, and offering no alternative path forward.

17 19. Rather than contest Prime’s arbitration clauses—which Plaintiffs believe are
18 unconscionable—TRUST LLC initiated arbitration to minimize the burden on the judiciary and
19 the parties of determining the appropriate forum for resolving this legal dispute. However, Prime
20 has been uncooperative. It has complicated the dispute resolution process rather than simplified
21 and streamlined it, as arbitration is supposed to do—even though Prime in reality imposed the
22 arbitration clauses on Plaintiffs.

23 20. Having attempted to comply with Prime’s mandatory arbitration requirement and
24 been stymied, TRUST LLC and the plaintiff pharmacies file this action to vindicate their rights
25 under antitrust and contract law.
26
27

III. NATURE OF THE CASE

21. This antitrust action arises out of Defendant Prime's horizontal conspiracy with its direct competitor, Express Scripts (together, the "Co-Conspirators"), to fix pharmaceutical reimbursement rates and related fees in violation of the Sherman Antitrust Act.

22. Pharmacies play a crucial role in the American healthcare system. They dispense medications, counsel patients, review prescriptions for safety and efficacy, compound medications, and manage medication therapy.

23. Approximately 92% of Americans have health insurance, including prescription drug coverage. To serve these patients, pharmacies must contract with the patient's pharmacy benefit manager ("Pharmacy Benefit Manager" or "PBM"), which in turn has contracted with the patient's health insurance plan to coordinate prescription drug benefits.

24. A pharmacy must agree to a PBM's drug-reimbursement rates and its various fees to serve the PBM's patients.

25. In recent years, the national PBM industry has become increasingly concentrated. PBMs have come under intense scrutiny for driving up the costs of prescription drugs across the United States. Today, just six PBMs—including Prime and Express Scripts—control 95% of all prescriptions filled in the nation. The "Big Three" PBMs—Express Scripts, CVS Caremark, and OptumRx—control more than 80% of the prescriptions filled in the U.S. Each generates tens of billions of dollars in annual revenues.

26. If pharmacies are to effectively serve their patients, they have little choice but to contract with each of the Big Three. Express Scripts is one of the two largest PBMs, managing pharmaceutical benefits for over 100 million health-plan members. Due to its size and control of access to many millions of patients who need their prescriptions filled, Express Scripts is able to use its market power to impose anti-competitive reimbursement rates and supracompetitive fees on pharmacies.

27. PBMs without Express Scripts' market power—including Prime—ordinarily must offer more competitive reimbursement rates and fees to attract business from pharmacies.

1 28. However, in 2019, Prime entered into a price-fixing agreement (“Agreement”)
2 with Express Scripts that enabled Prime to (1) deflate the rates at which the pharmacies are
3 reimbursed for filling prescriptions and dispensing pharmaceuticals to health-plan members
4 (hereinafter, “Reimbursement Rates”) and (2) inflate fees pharmacies are charged, including (a)
5 for so-called direct and indirect remuneration (“DIR”) to provide services for patients whose
6 plans contract with the Co-Conspirators (“DIR Fees”), and/or (b) for certain pharmaceutical
7 claim-processing services (“Transaction Fees”); (“Transaction Fees” and/or “DIR Fees” are
8 referred to hereinafter as “Fees”). The Agreement allowed Prime to impose Reimbursement
9 Rates and Fees that are less favorable to pharmacies than they otherwise would be, matching
10 Express Scripts’ Reimbursement Rates and Fees.

11 29. As part of the Agreement, Prime and Express Scripts regularly share confidential
12 pricing information to ensure price parity and eliminate normal market forces.

13 30. Through the unlawful Agreement, Prime was able to reduce its Reimbursement
14 Rates and raise its Fees to the levels of the more powerful Express Scripts. In effect, Prime
15 rented Express Scripts’ market power.

16 31. This blatant price-fixing Agreement has eliminated the normal market forces and
17 has allowed Prime to enjoy excess revenues at the expense of pharmacies. Co-Conspirator
18 Express Scripts demanded and receives a share of those revenues. Together, Prime and Express
19 Scripts unlawfully extract supracompetitive revenue via the price-fixing Agreement.

20 32. The Agreement is a naked restraint of trade. Except for the unlawful restraints,
21 Prime and Express Scripts have not combined or integrated any meaningful assets or business
22 functions. The only material change in the relationship between Prime and Express Scripts is that
23 Prime’s pharmacy Reimbursement Rates and Fees are now set at Express Scripts’
24 Reimbursement Rates and Fees.

25 33. The Agreement is a per se violation of § 1 of the Sherman Antitrust Act.
26
27

34. It also constitutes a Rule of Reason violation of § 1 because it unreasonably restricts competition by exercising market power on Prime transactions to deflate Reimbursement Rates and inflate Fees.

35. Additionally, Prime and Plaintiffs entered into Contracts setting forth the Reimbursement Rates and Fees owed by the parties each year.

36. As a result of Prime’s price-fixing conspiracy with Express Scripts, Prime reduced the Reimbursement Rates and raised the Fees imposed on Plaintiffs—in direct violation of the terms set forth in Prime’s Contracts.

IV. PARTIES

37. Plaintiff TRUST LLC is a Virginia limited liability company formed in 2023 by the National Community Pharmacists Association. Of the approximately 19,000 independent pharmacies in the United States, approximately 5,000 of them initiate this litigation through TRUST LLC, to which they have assigned their claims described herein or, in the alternative, initiate this litigation on their own behalf.

38. The majority of the Plaintiff pharmacy locations listed in Appendix A are owned by independent pharmacies that have assigned their claims to TRUST LLC and appointed TRUST LLC as their attorney-in-fact, authorizing it to file legal complaints on their behalf. The remaining Plaintiff pharmacy locations, as indicated in Appendix A, have not assigned their claims to TRUST LLC and bring their claims against Prime individually.

39. TRUST LLC asserts claims against Prime on behalf of those pharmacy locations listed in Appendix A that have assigned their claims to it.

40. In the alternative, the assignor pharmacies in Appendix A bring their claims against Prime individually.

41. Defendant Prime, a PBM, is a limited liability company organized under the laws of Delaware, with its principal place of business located in Eagan, Minnesota. Prime manages pharmacy benefits for approximately 33 million people in the United States.

42. Co-Conspirator Express Scripts, a non-party, is a corporation organized under the laws of Delaware, with its principal place of business located in St. Louis, Missouri. It is one of the two largest PBMs in the country.

V. JURISDICTION, VENUE, AND INTERSTATE COMMERCE

43. Plaintiffs bring this action pursuant to Section 4 of the Clayton Act, 15 U.S.C. § 15(a), to obtain damages from Prime's ongoing violations of Section 1 of the Sherman Act, 15 U.S.C. § 1. This Court has subject matter jurisdiction over Plaintiffs' antitrust claims pursuant to 28 U.S.C. §§ 1331 and 1337(a).

44. This Court has supplemental jurisdiction over Plaintiffs' contract claims pursuant to 28 U.S.C. § 1367.

45. This Court has personal jurisdiction over the Defendant pursuant to, among other statutes, Section 12 of the Clayton Act, 15 U.S.C. § 22.

46. Venue is proper in this Court pursuant to, among other statutes, Section 12 of the Clayton Act, 15 U.S.C. § 22, and 28 U.S.C. § 1391 because Prime regularly transacts business within this district, a substantial portion of the affected interstate trade and commerce discussed below has been carried out in this district, and Prime resides in this district.

47. The services at issue in this case are sold in interstate commerce. The unlawful activities alleged in this Complaint have occurred in, and have had substantial effect upon, interstate commerce in the United States.

VI. FACTUAL BACKGROUND

48. The U.S. pharmacy market consists of retail, mail-order, specialty/central fill pharmacies, epharmacies, healthsystem/hospital-based pharmacies, long-term care, and closed-door pharmacies. Retail pharmacies account for the largest segment of the U.S. pharmacy market by both number of participants and sales revenue.

49. A retail pharmacy dispenses medications to the general public at retail prices. Generally, the definition of retail pharmacy excludes the following type of pharmacies: mail

1 order, nursing home, long-term care facility, hospital-based, clinics, charitable or not-for-profit,
2 government, or pharmacy benefit managers.²

3 50. Historically, many retail pharmacies were locally owned. But now, large chains
4 such as CVS, Walgreens, Walmart, Kroger, and Publix are the largest pharmacies nationally
5 (“Large Chain Pharmacies”). Large Chain Pharmacies have increased their market share
6 dramatically over the last fifteen years.

7 51. The remainder of retail pharmacies are generally classified as independent. An
8 independent pharmacy is a privately-owned, retail business that is not affiliated with a large
9 corporate chain or publicly traded company. The market share of independent pharmacies has
10 shrunk by 50% over the last two decades.

11 52. Plaintiffs are pharmacies located throughout the country and vary in size and
12 structure.

13 53. TRUST LLC pharmacies are independent pharmacies. Most of the TRUST LLC
14 pharmacy owners control two or fewer locations. Some of TRUST LLC pharmacies have been
15 forced to close during the operative time period, in large part due to the unreasonable ESI-based
16 reimbursement rates and unconscionable DIR fees and related payment terms imposed on them
17 by Prime.

18 54. Independent pharmacies are vital to the communities they serve. There are
19 roughly 19,000 independent community pharmacies. These are locally owned, family run, small
20 businesses. The average independent pharmacy employs 10 people and fills roughly 60,000
21 prescriptions per year. More than half of their patients depend on Medicare and Medicaid. 65
22 percent of independent pharmacies serve communities with fewer than 50,000 residents.
23 Roughly a third serve communities with fewer than 10,000 residents. 60 percent of independent
24 pharmacies provide monetary support to community-based organizations, with 61 percent of
25 them giving more than \$3,000 annually. And more than half of all independent pharmacists are
26 members of local business groups.

1 55. Perhaps nothing illustrated the vital role that independent pharmacies play in their
2 communities more than the COVID-19 pandemic. According to the Centers for Disease Control,
3 local retail pharmacies delivered more than 300 million doses of vaccine for the COVID-19
4 virus. In fact, according to IQVIA, a medical data firm, most COVID-19 shots administered to
5 American adults were received in local pharmacies. Thousands of the pharmacies that
6 participated in the Federal Retail Pharmacy Program were independently owned community
7 pharmacies. It is no exaggeration to say that local independent pharmacies were at the center of
8 the largest medical mobilization in history.

9 56. According to the Gallup organization, pharmacists rank among the top five most
10 trusted professionals. Higher than medical doctors. Higher than military officers. Higher than
11 clergy. One reason may be the unusual frequency with which Americans visit their local
12 pharmacist. According to the National Institute of Health, patients see their local pharmacist
13 more than twice as often as they see their physician. And when they visit, they receive healthcare
14 extending far beyond prescription drugs. Local independent pharmacists provide many critical
15 healthcare services, including medicine consultations, adherence services, long-term care
16 services, point-of-care testing, diabetes counseling, and home delivery. Americans regard their
17 local pharmacist as a familiar, friendly, convenient source of healthcare counseling and services.

18 57. Between 2003 and 2018, 1,231 of the 7,624 independent rural pharmacies in the
19 United States closed. That left 630 rural communities that had at least one retail pharmacy in
20 2003 with none in 2018. Since 2018, many more pharmacies have closed, forcing rural
21 populations to travel greater distances to obtain vital medications.

22 58. Because of the loss of these independent pharmacies, over 40% of counties in the
23 United States are considered “pharmacy deserts,” where most people must travel significant
24 distances to reach the nearest pharmacy.⁶ This can be insurmountable for people who lack
25 transportation, time, or both, especially the poor and the elderly.

26 59. PBMs such as Prime and Express Scripts function as aggregators of market power
27 in the distribution of prescription drugs. PBMs administer, on behalf of private and public health

1 insurance plans, the acquisition of prescription drugs from drug manufacturers, and negotiate the
2 Reimbursement Rates pharmacies are paid and Fees pharmacies pay for dispensing those
3 medications to health insurance plan members. Insurance plans hire PBMs to administer
4 prescription drug benefits provided to their members.

5 60. PBMs were initially founded to process pharmaceutical claims for healthcare
6 plans. In the late 1980s, PBMs began to create more significant “pharmacy benefit” services by
7 developing a system for reimbursement of drug claims, claim processing, and drug dispensing
8 control. PBMs contract with drug manufacturers and pharmacies to create these distribution,
9 reimbursement, and claim-processing services. PBMs negotiate with drug manufacturers to have
10 their drugs included in the PBMs’ formularies, and they contract with pharmacies to distribute
11 drugs and services to plan members subject to Reimbursement Rates and Fees negotiated by the
12 PBMs.

13 61. Reimbursement to pharmacies generates revenues for PBMs. Health plans own or
14 hire PBMs to negotiate drug pricing with manufacturers, and to determine the amount
15 pharmacies will be reimbursed for drugs. For a time, PBMs used a series of rebates and fees
16 along the supply chain to charge plans more for prescription drugs than the amount they
17 reimburse pharmacies. In other words, PBMs retained a portion of the payments they received
18 from health plans to reimburse pharmacies. That was known as the PBMs’ “spread.” Effective
19 January 1, 2010, CMS finalized a rule prohibiting Part D plan sponsors and their contracted
20 PBMs from including PBM spread in the prices for drugs covered under the Part D benefit. But
21 since then, PBMs have found other ways to achieve similar harms to competitive pricing—and,
22 indeed, more significant harms.

23 62. Market consolidation and vertical integration have transformed PBMs into entities
24 with outsized market power and soaring profits.

25 63. The trend toward vertical integration has magnified the Big Three PBMs’ market
26 power. Each of them is now affiliated with a dominant health insurer: Express Scripts (PBM) is
27

1 affiliated with Cigna (health insurer); CVS Caremark (PBM) is affiliated with Aetna (health
2 insurer); and OptumRx (PBM) is affiliated with United Healthcare (health insurer).

3 64. The Big Three's market consolidation and vertical integration have given them
4 control over access to large networks of customers (insured patients). Consequently, pharmacies
5 cannot realistically avoid doing business with the dominant PBMs, including Express Scripts.
6 Doing so would deprive a pharmacy of access to the overwhelming majority of prescription drug
7 transactions. If Plaintiffs refused to do business with Express Scripts, patients whose plans use
8 Express Scripts could not use their insurance to fill covered prescriptions at those pharmacies.

9 65. Even before the anticompetitive Agreement, Express Scripts exerted significant
10 leverage over Plaintiffs based on its substantial share of PBM-controlled prescriptions—up to
11 38%, depending on the metric—and its control over access to more than 100 million insured
12 customers who purchase prescription drugs. In addition, Prime controls approximately 10% of
13 PBM-controlled prescriptions depending on the metric. Collectively, this gives Prime and ESI
14 market power. Pharmacies, including Plaintiffs must either bow to Express Scripts' aggregated
15 demand and accept the Reimbursement Rates and Fees that Express Scripts imposes or
16 effectively lose access to more than 100 million pharmacy patients.

17 **VII. PRIME'S UNLAWFUL HORIZONTAL AGREEMENT**

18 66. Prime has capitalized on Express Script's market power to enter into an
19 anticompetitive Agreement to fix its Reimbursement Rates and Fees for pharmacies.

20 67. Prime previously imposed Reimbursement Rates that were higher, and Fees that
21 were lower, than the Express Scripts' Reimbursement Rates and Fees, giving Prime a
22 competitive advantage in seeking business from pharmacies, including Plaintiffs.

23 68. Through the Agreement, Prime agreed to rent Express Scripts' network. For those
24 transactions, rather than allowing normal market forces to set prices, Prime would lower its
25 Reimbursement Rates and raise its Fees to match those of Express Scripts. Prime agreed to set its
26 Reimbursement Rates and Fees based on Express Scripts' schedules.
27

69. Prime and Express Scripts agreed that Prime's Reimbursement Rates and Fees on the relevant transactions would no longer be at the levels Prime negotiated on its own with pharmacies. Instead, Prime's Reimbursement Rates and Fees would be set at the amounts pharmacies are forced to accept from Express Scripts.

70. Express Scripts, due to the large number of covered lives it represents, enjoys substantial market power in setting Reimbursement Rates and Fees. The Agreements allow Prime to effectively rent Express Scripts' substantial market power to impose lower Reimbursement Rates and higher Fees on independent pharmacies, including Plaintiffs, than the pharmacies would otherwise accept.

71. This price-fixing Agreement enabled Prime to obtain greater revenues from pharmacies, including Plaintiffs, than competition otherwise would allow. In exchange, Express Scripts received from Prime a share of those unlawfully high revenues. For each pharmacy transaction that Prime processes using Express Scripts' price and fee schedules, Prime pays a portion of its compensation to Express Scripts. In other words, Express Scripts and Prime use the Agreements to unlawfully extract revenues from pharmacies, including Plaintiffs, which Prime and Express Scripts then share.

72. Other than fixing prices, the Agreement does not provide for Prime and Express Scripts to undertake any joint commercial activity. The Agreement does not produce any efficiencies that could justify the unadorned price fixing. Prime and Express Scripts simply agreed that Prime will impose Express Scripts' relatively low Reimbursement Rates and high Fees, and that Prime will pay a portion of its additional revenues to Express Scripts.

73. The Agreement fixes prices, pure and simple.

74. Prime and Express Scripts entered into an agreement to fix Reimbursement Rates and certain Fees. The Agreement, effective April, 2020, for private health plans and Medicaid, and January, 2021 for Medicare, provides that Prime's Reimbursement Rates and Fees are fixed at Express Scripts' Reimbursement Rates and Fees. The Agreement is ongoing.

1 75. Prime and Express Scripts both benefit from the lower Reimbursement Rates and
2 higher Fees that Prime imposes on pharmacies by, in effect, renting Express Scripts' market
3 power.

4 76. Aside from the Agreement to fix prices, Prime and Express Scripts continue to
5 work independently with pharmacies, including Plaintiffs. Prime has disavowed any intention of
6 combining business functions with Express Scripts so as to potentially increase efficiency or
7 economies of scale.

8 77. Although Prime's Reimbursement Rates and Fees are now established by the
9 Express Scripts price schedule, Prime advised pharmacies, including Plaintiffs, on February 28,
10 2020 that Prime "will continue to process claims on behalf of our Benefit Sponsors." The only
11 participation in the process by Express Scripts is to add an Express Scripts network identifier to
12 the Prime computer system so that the Express Scripts Reimbursement Rates and Fees will be
13 imposed on the Prime transactions.

14 78. Prime has stated that it will continue to process all Prime claims, continue to
15 handle its own billing and benefits management, and continue to perform all other PBM
16 functions. Indeed, Prime stated in a January 2, 2020 press release that it "will continue to operate
17 our claims processing platform as well as manage and deliver a wide range of services to our
18 clients and their members, including network management, formulary management, and clinical
19 programs."

20 79. Prime's CEO, Ken Paulus, confirmed these facts in a September 28, 2021
21 interview published in Managed Healthcare. Paulus acknowledged that, other than using Express
22 Scripts prices, "we didn't really change anything at Prime. We still process our own claims. We
23 own the claim system. We do all our own Pas [prior authorizations], contact center, utilization
24 management—we do everything ourselves. So it's been a fairly elegant solution for us as a way
25 to save significant dollars, but do so without giving up our strategic optionality, which is
26 continuing to run our own business." Paulus concluded by stating, "we're basically still doing all
27 the functions of the PBM except for the procurement."

VIII. ANTICOMPETITIVE EFFECTS

80. The Agreement is a per se violation of § 1 of the Sherman Antitrust Act. It is also a Rule of Reason violation of § 1 because it unreasonably restricts competition by exercising market power to (1) suppress Reimbursement Rates, and (2) inflate Fees.

81. Plaintiffs were injured by this anticompetitive conduct. The Agreement impairs free-market forces that otherwise would determine the Co-Conspirators' prices. As a result, Plaintiffs receive lower Reimbursement Rates and pay higher Fees on transactions with the Co-Conspirators than they otherwise would. The unlawful Agreement also injures competition by reducing consumer choice, suppressing the output of pharmacy services, and decreasing the quality of pharmacy services, all without any offsetting procompetitive benefits.

82. By obstructing the free-market forces that otherwise would determine Reimbursement Rates and Fees, the unlawful Agreement misallocates resources and suppresses the supply of pharmacy services to Prime's health-plan members and to the patients served by those plans.

IX. MARKET POWER

83. Express Scripts and Prime collectively have market power over independent pharmacies, including Plaintiffs.

84. Express Scripts, like other large PBMs, uses its market power to force pharmacies to accept lower Reimbursement Rates and higher Fees than the pharmacies otherwise would. The greater the number of plan members that a PBM represents, the greater its market power. Pharmacies, including Plaintiffs, must either bow to Express Scripts' demands on Reimbursement Rates and Fees or effectively lose access to many millions of plan members. Plaintiffs, and other pharmacies, have no realistic option other than to accept Express Scripts' terms because they cannot reasonably operate if they are cut off from such a large segment of potential customers.

85. Moreover, pharmacy customers are locked into the insurance coverage that they have purchased. That includes both a healthcare plan and the PBM that has contracted with that

1 plan. By the time a customer arrives at a pharmacy counter to obtain prescription drugs, the PBM
2 that will process that transaction is set. The claim is processed through the PBM automatically.
3 The pharmacy cannot seek better Reimbursement Rates or Fees from a different PBM. A
4 pharmacy can refuse to contract with a PBM, but the predictable result is that the customers in
5 that PBM's network will take their prescription drug business to other pharmacies. In other
6 words, a pharmacy cannot "shop" a PBM—that decision is made by the patient before the patient
7 enters the pharmacy.

8 86. Express Scripts' market power is demonstrated by its imposing Reimbursement
9 Rates that are below, and Fees that are above, competitive levels. Before Prime entered into the
10 unlawful Agreement, Prime's Reimbursement Rates were greater, and its Fees were lower, than
11 those of Express Scripts. The competitive level for Reimbursement Rates was at least as high,
12 and for Fees was at least as low, as the rates Prime charged before the unlawful Agreement.

13 87. Moreover, and within the last five years, Express Scripts has reduced its
14 Reimbursement Rates by more than 10%, and increased its Fees by more than 10%, without a
15 basis in its relevant costs.

16 88. In addition, since at least the date of the unlawful Agreement, Express Scripts has
17 enjoyed supracompetitive profits. Its market power over independent pharmacies is a principal
18 source of those supracompetitive profits.

19 89. Express Scripts' market power is further illustrated by its ability to impose
20 onerous terms on pharmacies, including noncompetitive Reimbursement Rates and Fees.

21 90. Through the price-fixing agreement, Prime rents Express Scripts' market power to
22 impose lower Reimbursement Rates and higher Fees than Prime would have imposed in a
23 competitive world. Collectively, Prime and Express Scripts have even greater market power and
24 the ability to restrain competition.

25 91. If it were necessary to establish market power indirectly, by defining a relevant
26 market, the relevant market here is the national market to fill PBM-covered patient prescriptions
27 and for related services (the "PBM Network Market"), or narrower markets therein. A PBM with

1 market power in the PBM Network Market can profitably deflate Reimbursement Rates to
2 pharmacies below competitive levels and inflate Fees to pharmacies above competitive levels.
3 Pharmacies generally must either accept the terms that Express Scripts imposes for transactions
4 involving patients with health-care plans in its network or forgo reimbursement from the relevant
5 plans. As a result, Express Scripts has much greater market power than its market share would
6 ordinarily indicate. Through Prime's price-fixing Agreement with Express Scripts, Prime rents
7 Express Scripts market power to pay lower Reimbursement Rates and charge higher Fees to
8 Plaintiffs, and other independent pharmacies, than it would in a competitive world.

9 92. An automotive repair shop, for example, may be able to avoid paying inflated
10 prices to a car-part manufacturer by purchasing parts from a rival manufacturer. It may lose few,
11 if any, customers and sales by doing so. The same cannot be said for pharmacies, including
12 Plaintiffs.

13 93. Pharmacies generally cannot switch between PBMs with similar ease to serve
14 their customers. If a pharmacy were to decline to contract with Express Scripts, patients subject
15 to the Express Scripts network would be forced to switch insurance providers to use their
16 insurance at that pharmacy. Express Scripts thus has substantial market power in imposing
17 deflated Reimbursement Rates and inflated Fees on pharmacies.

18 94. The relevant geographic market is the United States, or narrower markets therein.
19 Even before the anticompetitive Agreement described in this Demand, Express Scripts enjoyed
20 significant market power due to its substantial market share—up to 38%, depending on the
21 metric—and its control over access to more than 100 million insured consumers who purchase
22 prescription drugs.

23 95. As a result of the Agreement, Prime can and does decrease its Reimbursement
24 Rates and increase its Fees to match Express Scripts' Reimbursement Rates and Fees, essentially
25 allowing Prime to rent Express Scripts' market power.

26 96. The unlawful Agreement augments Express Scripts' already substantial market
27 power, increasing its market share by adding the covered patients and the transactions of Prime.

1 **X. CONTINUING VIOLATION**

2 97. Prime's conduct also constitutes a continuing violation of the antitrust laws.
3 Though formed in 2019, Prime and Express Scripts' Agreement has continued through the
4 present. Prime continues to engage in the anticompetitive conduct described herein and has taken
5 no affirmative steps to withdraw from it.

6 98. Every claim processed by Prime subject to its unlawful Agreement with Express
7 Scripts constitutes an overt act that inflicted new and accumulating injury on Plaintiffs.

8 **XI. PRIME'S BREACH OF CONTRACT**

9 99. Prime and Plaintiffs entered into contracts that set forth the Reimbursement Rates
10 and Fees owed by the parties each year.

11 100. As a result of Prime's price-fixing conspiracy with Express Scripts, Prime
12 reduced the Reimbursement Rates and raised the Fees imposed on Plaintiffs—in direct violation
13 of the terms set forth in its contracts.

14 **XII. COMMON ALLEGATIONS**

15 101. Plaintiffs consist of thousands of pharmacies that are geographically dispersed
16 across the United States.

17 102. Each Plaintiff brings claims that are typical of the claims of all Plaintiffs. Each
18 Plaintiffs' interests are not antagonistic to the claims of other Plaintiffs, and Plaintiffs have no
19 materials conflicts with any other Plaintiffs.

20 103. Plaintiffs were damaged by the same wrongful conduct of Prime arising from
21 Prime's unlawful Agreement with its Co-Conspirator Express Scripts. On Prime transactions,
22 Plaintiffs were subject to (1) artificially deflated Reimbursement Rates and (2) artificially
23 inflated Fees.

24 104. These harms arise out of and relate to Prime's Agreement with Express Scripts in
25 violation of the Sherman Act. Plaintiffs do not assert any claims, and do not seek any damages,
26 based on transactions for which Express Scripts has been retained as the PBM for a health plan.
27

105. Plaintiffs are represented by counsel who are experienced and competent in the prosecution of class action, mass action, and other complex litigation, particularly involving antitrust claims.

106. Questions of law and fact are common to all Plaintiffs. These common questions include:

- a. Whether Prime breached its contracts with Plaintiffs;
- b. Whether and to what extent Prime and its Co-Conspirator Express Scripts engaged in contracts, combinations, conspiracies, or agreements to restrain competition, including by artificially deflating Reimbursement Rates and artificially inflating Fees, for Plaintiffs;
- c. The anticompetitive effects of the contracts, combinations, conspiracies, or agreements;
- d. Whether Prime's conduct caused anticompetitive Reimbursement Rates, Fees, or both;
- e. Whether, and to what extent, the conduct of Prime and its Co-Conspirator Express Scripts caused antitrust injury to the Plaintiffs; and
- f. Whether the contracts, combinations, conspiracies, or agreements violated Section 1 of the Sherman Act, 15 U.S.C. § 1.

107. These common questions do not vary among the Plaintiffs, so the Court and the jury may resolve these issues without reference to the individual circumstances of any Plaintiff.

XIII. CAUSES OF ACTION

A. Claim 1: Violations of Section 1 of the Sherman Antitrust Act

108. Plaintiffs incorporate by reference the allegations contained in preceding paragraphs of this Demand as though fully set forth herein.

109. Prime and Express Scripts, both PBMs, are direct business competitors that formed a horizontal Agreement to fix Reimbursement Rates and Fees for pharmacies, including Plaintiffs, on Prime transactions.

110. That Agreement is a *per se* violation of Section 1 of the Sherman Antitrust Act, 15 U.S.C. § 1.

111. That Agreement also violates Section 1 of the Sherman Antitrust Act, 15 U.S.C. § 1, under the Rule of Reason. The Agreement's intended and actual effect is to deflate the Reimbursement Rates below competitive levels and to inflate Fees above competitive levels.

112. The Agreement misallocates economic resources by artificially deflating Reimbursement Rates and artificially inflating Fees for Plaintiffs on Prime transactions.

113. The Agreement reduces consumer choice of pharmacies, the quality and convenience of pharmacy services, and the output of pharmacy services to consumers.

114. The Agreement does not integrate any economic functions that could plausibly create any economic efficiencies or economies of scale and does not produce any procompetitive effects. Even if the Agreement had produced any such effects, they could easily be achieved by significantly less restrictive means than the horizontal aggregation of market power and the suppression of horizontal price competition, and any procompetitive effects are substantially outweighed by the Agreement's anticompetitive effects.

115. Whether Prime's conduct is judged under the *per se* rule or the Rule of Reason, the direct and proximate result of that unlawful conduct is that Plaintiffs have been injured by artificially deflated Reimbursement Rates and artificially inflated Fees on Prime transactions.

B. Claim 2: Breach of Contract

116. Plaintiffs incorporate by reference the allegations contained in preceding paragraphs of this Demand as though fully set forth herein.

117. Prime and Plaintiffs entered into contracts which set forth the Reimbursement Rates and Fees owed by the parties related to the pharmacies' filling and dispensing services for Prime health plan members.

118. As a result of Prime's conspiracy with Express Scripts, Prime began imposing Reimbursement Rates and Fees on Plaintiffs that were less favorable to the pharmacies than those set forth in contracts.

1 119. Accordingly, there was a contract between Prime and Plaintiffs.

2 120. Prime breached its obligations under the contract by imposing lower
3 Reimbursement Rates and higher Fees than those set forth in the contract.

4 121. Plaintiffs were damaged by Prime's breach.

5 **XIV. REQUEST FOR RELIEF**

6 WHEREFORE, Plaintiffs respectfully request that judgment be entered in its favor and
7 against Prime, and that the Court enter an Order:

8 A. Determining that Prime has violated Section 1 of the Sherman Antitrust Act on
9 account of the acts alleged herein;

10 B. Issuing judgment against Prime for treble the damages sustained by Plaintiffs as
11 provided under Section 4 of the Clayton Act;

12 C. Provide for pre-judgment and post-judgment interest, to the extent legally
13 available, at the highest applicable legal rate;

14 D. Ordering that Plaintiffs recover costs of suit, including reasonable attorneys' fees
15 and costs as provided by Section 4 of the Clayton Act;

16 E. Ordering that Plaintiffs recover breach of contract damages; and

17 F. Granting such other and further relief as the Court deems just and proper.

18 //

19 //

20 //

21 //

22 //

23 //

24 //

25 //

26 //

27 //

1 RESPECTFULLY SUBMITTED AND DATED this 2nd day of July, 2026.
